

**Amendments to the Specification:**

**Amendment to the Title of the Invention**

Please delete the current title and replace it with the following:

“A METHOD AND A COMPUTER PROGRAM PRODUCT STORED IN A  
COMPUTER READABLE MEDIUM FOR MANAGING LOCALLY INITIALED  
ELECTRONIC MAIL ATTACHED DOCUMENTS”

**Amendments to the Specification**

Please amend paragraph [0025] as follows:

[0025] Referring to FIG. 3a, there is an illustration of a typical screen during the creation of an electronic message. As shown, there is a text section 94 ~~34~~ for the message and the standard party and subject information: To, Subject, Cc, and Bcc. In addition, there are control icons that allow a sender certain options before and during the transmission of the message. The icons can include Send, Reply, Reply All, Forward and Delete. Also shown is an attachment icon 35. As previously mentioned, this attachment option enables the sender to attach a document to the electronic message.

Please amend paragraph [0027] as follows:

[0027] Referring back to FIG. 3b, after the sender has selected a document for attachment, the sender will click the attach icon 97 ~~37~~. At this point, there will be a listing of the attached document on the screen. If the sender is satisfied with this attached document, the sender can click the OK icon 38 to confirm the attachment of this document. If the sender decides to send a different document, the sender can click the detach icon 39 to remove the previously attached document from the electronic message. If the sender decides not to attach a document to the message, the sender can click the cancel icon 40, and return to the main message screen shown in FIG. 3a.
